READY TO GO. WHEREVER YOU ARE.

VEHICLES WITH BUILT-IN RELIABILITY

Drivecenter VR specialises in professional vehicles for demanding environments. Well-equipped pickups and custom passenger vehicles for the mining, infrastructure and construction industry. We customise your choice of vehicle in our workshop in Boliden, so you get a robust, reliable solution that meets your specific needs, and eliminate unnecessary downtime or unexpected expenditures. All of the more than 150 vehicles in our rental fleet meet industry requirements for safe-

ty and eco-friendliness and are available for long-term or short-term rental. We always offer free mileage.

One more thing. We are wherever you need us to be. You choose a base location and Drivecenter VR make sure the vehicles are on-site and ready to go. And as an added assurance, we have our own, specially-trained industry mechanics who can quickly arrange with service and repairs. Virtually anywhere.

Contact us for further information on worry-free, cost-effective vehicle rentals.
